# AUTHOR AND SUBJECT INDEX 2001

## AUTHORS

**Alspach JG:** Where are we heading in healthcare? Apr:11
—Reader survey on RN shortage: results, Oct:10
—Findings from reader survey on RN shortage: "I still love nursing, but...", Dec:6

**Avella P** see Gilcreast DM

**Bader MK** see Littlejohns LR

**Beckstrand RL:** Understanding chest radiographs of infants and children: the AIR systematic approach, June:54

**Benson J** see Yager M

**Boyd CM** see Lewis PS

**Burns, Suzanne M:** Continuous airway pressure monitoring, June:66

**Burns, Shari M:** Revisiting hypothermia: a critical concept, Apr:83
—Safely caring for patients with a laryngeal mask airway, Aug:72

**Camarillo E** see Gilcreast DM

**Casey Kidd K, Criddle L:** Using jugular venous catheters in patients with traumatic brain injury, Dec:16

**Chyun DA:** Diabetes and coronary heart disease: a time for action, Feb:10

**Coleman JR** see Olsen J

**Criddle L** see Casey Kidd K

**Edwards S:** Precepting skills for competencies is ongoing, June:88

**Esguerra TC:** Case scenario compilations reinforce confidence at the bedside, Dec:88

**Felice LD** see Vetter E

**Fidler BD** see Wedekind CA

**Flynn MB:** Nursing and informatics: implications for critical care practice, Aug:8

**Frakes MA:** Measuring end-tidal carbon dioxide: clinical applications and usefulness, Oct:23

**Franck LS:** A pain in the act: musings on the meaning for critical care nurses of the pain management standards of the Joint Commission on Accreditation of Healthcare Organizations, June:8

**Gilcreast DM, Avella P, Camarillo E, Mullane G:** Treating severe anemia in a trauma patient who is a Jehovah's Witness, Apr:69

**Goodroad BK** see Kirksey KM

**Hardin S, Hussey L:** Clinical inquiry, Apr:88

**Headrick L** see Milonovich LM

**Hendrickx L, Winters C:** Evaluating healthcare information on the Internet: guidelines for nurses, Apr:62

**Henneman EA:** Liberating patients from mechanical ventilation: a team approach, June:25

**Holt-Ashley M** see Kirksey KM

**Hubert NE** see Lewis PS

**Hussey L** see Hardin S

**Hynes-Gay P, MacDonald R:** Using high-frequency oscillatory ventilation to treat adults with acute respiratory distress syndrome, Oct:38

**Ingersoll GL** see Vetter E

**Jacobs DO** see Trujillo EB

**Jesurum J:** $SvO_2$ monitoring, Feb:79

**Kamajian M** see Yager M

**Kirksey KM, Holt-Ashley M, Goodroad BK:** An easy method for interpreting the results of arterial blood gas analysis, Oct:49

**Lentz L** see McBee P

**Lewis PS, Boyd CM, Hubert NE, Steele MC:** Ethanol-induced therapeutic myocardial infarction to treat hypertrophic obstructive cardiomyopathy, Apr:20

**Littlejohns LR, Bader MK:** Guidelines for the management of severe head injury: clinical application and changes in practice, Dec:48

**Logan M:** Fostering use of the Internet for research on clinical issues, Dec:29

**MacDonald R** see Hynes-Gay P

**MacKlin M:** Managing heart failure: a case study approach, Apr:36

**Maier B** see Zevola DR

**Markey DW:** Applying the Synergy Model: clinical strategies, June:72

**McBee P, Lentz L, Williams R:** Quick reference helps new nurses survive after orientation, Apr:112

**McCray SF** see Wilmoth D

**McKenney WM:** Understanding the neonatal immune system: high risk for infection, Dec:35

**Milonovich LM, Headrick L, Seikaly M, Morriss FC:** Charcoal hemoperfusion via a continuous venovenous hemofiltration circuit to treat carbamazepine overdose, Dec:25

**Moloney-Harmon PA** see Rohde D

**Morriss FC** see Milonovich LM

**Mullane G** see Gilcreast DM

**O'Brien C:** Drug cards are a quick and portable reference, Aug:96

**Olsen J, Coleman JR:** Using continuous quality improvement techniques to determine the causes of hospital readmission, Apr:52

**Paul S:** Understanding advanced concepts in atrioventricular block, Feb:56

**Petterson M:** Procedure boxes save time, save steps, save money, Feb:96
—Coronary care unit relies on nurses' feedback for recruitment and retention, Oct:88

**Reger TB, Roditski D:** Bloodless medicine and surgery for patients having cardiac surgery, Aug:35

**Ress B:** Caring for patients with HIV disease in the new millennium, Feb:69

**Roberts BL:** Managing delirium in adult intensive care patients, Feb:48

**Robinson MK** see Trujillo EB

**Roditski D** see Reger TB

**Rohde D, Moloney-Harmon PA:** Pediatric critical care nursing: Annie's story, Oct:66

**Schlicher ML:** Using liquid ventilation to treat patients with acute respiratory distress syndrome: a guide to a breath of fresh liquid, Oct:55

**Seikaly M** see Milonovich LM

**Steele MC** see Lewis PS

# AUTHOR AND SUBJECT INDEX 2001

**Sturla Franck L:** A pain in the act: musings on the meaning for critical care nurses of the Pain Management Standards of the Joint Commission on Accreditation of Healthcare Organizations, June:8

**Tomlin R** see Wilmoth D

**Trujillo EB, Robinson MK, Jacobs DO:** Feeding critically ill patients: current concepts, Aug:60

**Van Orden Wallace CJ:** Diagnosing and treating pacemaker syndrome, Feb:24

**Vance DL:** Treating acute ischemic stroke with intravenous alteplase, Aug:25

**Vetter E, Felice LD, Ingersoll GL:** Self-scheduling and staff incentives: meeting patient care needs in a neonatal intensive care unit, Aug:52

**Walters PE** see Wilmoth D

**Wedekind CA, Fidler BD:** Compatibility of commonly used intravenous infusions in a pediatric intensive care unit, Aug:45

**Williams R** see McBee P

**Wilmoth D, Walters PE, Tomlin R, McCray SF:** Caring for adults with cystic fibrosis, June:34

**Winters C** see Hendrickx L

**Yager M, Benson J, Kamajian M:** Brugada syndrome: a case study of aborted sudden cardiac death manifesting as seizures, Feb:38

**Zevola DR, Maier B:** Use of nasal cannula versus face mask after extubation in patients after cardiothoracic surgery, June:47

## SUBJECTS

**Anemia**
Treating severe anemia in a trauma patient who is a Jehovah's Witness [Gilcreast] Apr:69

**Blood conservation**
Bloodless medicine and surgery for patients having cardiac surgery [Reger] Aug:35

**Blood gas analysis**
An easy method for interpreting the results of arterial blood gas analysis [Kirksey] Oct:49

**Capnography**
Measuring end-tidal carbon dioxide: clinical applications and usefulness [Frakes] Oct:23

**Cardiac pacing, artificial**
Diagnosing and treating pacemaker syndrome [Van Orden Wallace] Feb:24

**Cardiomyopathy, hypertrophic**
Ethanol-induced therapeutic myocardial infarction to treat hypertrophic obstructive cardiomyopathy [Lewis] Apr:20

**Central venous catheters**
Using jugular venous catheters in patients with traumatic brain injury [Casey Kidd] Dec:16

**Cerebral vascular accident**
Treating acute ischemic stroke with intravenous alteplase [Vance] Aug:25

**Critical care nursing**
Feeding critically ill patients: current concepts [Trujillo] Aug:60

**Cystic fibrosis**
Caring for adults with cystic fibrosis [Wilmoth] June:34

**Death, sudden, cardiac**
Brugada syndrome: a case study of aborted sudden cardiac death manifesting as seizures [Yager] Feb:38

**Delirium**
Managing delirium in adult intensive care patients [Roberts] Feb:48

**Diabetes mellitus**
Diabetes and coronary heart disease: a time for action [Chyun] Feb:10

**Education, clinical**
An easy method for interpreting the results of arterial blood gas analysis [Kirksey] Oct:49

**Education, nursing**
Fostering use of the Internet for research on clinical issues [Logan] Dec:29

**Healthcare industry**
Where are we heading in healthcare? [Alspach] Apr:11

**Heart failure, congestive**
Managing heart failure: a case study approach [MacKlin] Apr:36

**Heart surgery**
Use of nasal cannula versus face mask after extubation in patients after cardiothoracic surgery [Zevola] June:47

Bloodless medicine and surgery for patients having cardiac surgery [Reger] Aug:35

**Hemoperfusion**
Charcoal hemoperfusion via a continuous venovenous hemofiltration circuit to treat carbamazepine overdose [Milonovich] Dec:25

**HIV-AIDS nursing**
Caring for patients with HIV disease in the new millennium [Ress] Feb:69

**Hypothermia**
Revisiting hypothermia: a critical concept [Burns] Apr:83

**Immune system**
Understanding the neonatal immune system: high risk for infection [McKenney] Dec:35

**Infusions, intravenous**
Compatibility of commonly used intravenous infusions in a pediatric intensive care unit [Wedekind] Aug:45

**Intensive care units, neonatal**
Self-scheduling and staff incentives: meeting patient care needs in a neonatal intensive care unit [Vetter] Aug:52

**Internet**
Evaluating healthcare information on the Internet: guidelines for nurses [Hendrickx] Apr:62

Fostering use of the Internet for research on clinical issues [Logan] Dec:29

**Monitoring**
$Svo_2$ monitoring [Jesurum] Feb:79

**Myocardial infarction**
Ethanol-induced therapeutic myocardial infarction to treat hypertrophic obstructive cardiomyopathy [Lewis] Apr:20

**Neonatal nursing**
Understanding the neonatal immune system: high risk for infection [McKenney] Dec:35

**Nursing care**
Caring for adults with cystic fibrosis [Wilmoth] June:34

Treating acute ischemic stroke with intravenous alteplase [Vance] Aug:25

Safely caring for patients with a laryngeal mask airway [Burns] Aug:72

**Nursing informatics**
Evaluating healthcare information on the Internet: guidelines for nurses [Hendrickx] Apr:62

Nursing and informatics: implications for critical care practice [Flynn] Aug:8

**Nursing management**
Self-scheduling and staff incentives: meeting patient care needs in a neonatal intensive care unit [Vetter] Aug:52

**Nursing practice**
Clinical inquiry [Hardin] Apr:88

Guidelines for the management of severe head injury: clinical application and changes in practice [Littlejohns] Dec:48

Procedure boxes save time, save steps, save money [Petterson] Feb:96

Quick reference helps new nurses survive after orientation [McBee] Apr:112

Applying the Synergy Model: clinical strategies [Markey] June:72

Nursing and informatics: implications for critical care practice [Flynn] Aug:8

Drug cards are a quick and portable reference [O'Brien] Aug:96

Case scenario compilations reinforce confidence at the bedside [Esguerra] Dec:88

**Nursing shortage**
Reader survey on RN shortage: results [Alspach] Oct:10

Coronary care unit relies on nurses' feedback for recruitment and retention [Petterson] Oct:88

Findings from reader survey on RN shortage: "I still love nursing, but..." [Alspach] Dec:6

**Nutrition therapy**
Feeding critically ill patients: current concepts [Trujillo] Aug:60

**Pacemaker, artificial**
Understanding advanced concepts in atrioventricular block [Paul] Feb:56

**Pain management**
A pain in the act: musings on the meaning for critical care nurses of the Pain Management Standards of the Joint Commission on Accreditation of Healthcare Organizations [Sturla Franck] June:8

**Pediatric critical care nursing**
Understanding chest radiographs of infants and children: the AIR systematic approach [Beckstrand] June :54

Compatibility of commonly used intravenous infusions in a pediatric intensive care unit [Wedekind] Aug:45

Pediatric critical care nursing: Annie's story [Rohde] Oct:66

**Poisoning**
Charcoal hemoperfusion via a continuous venovenous hemofiltration circuit to treat carbamazepine overdose [Milonovich] Dec:25

**Postanesthesia care**
Revisiting hypothermia: a critical concept [Burns] Apr:83

Safely caring for patients with a laryngeal mask airway [Burns] Aug:72

**Preceptorship**
Precepting skills for competencies is ongoing [Edwards] June:88

**Quality improvement**
Using continuous quality improvement techniques to determine the causes of hospital readmission [Olsen] Apr:52

**Radiography**
Understanding chest radiographs of infants and children: the AIR systematic approach [Beckstrand] June:54

**Readmission**
Using continuous quality improvement techniques to determine the causes of hospital readmission [Olsen] Apr:52

**Respiratory distress syndrome, acute**
Using high-frequency oscillatory ventilation to treat adults with acute respiratory distress syndrome [Hynes-Gay] Oct:38

Using liquid ventilation to treat patients with acute respiratory distress syndrome: a guide to a breath of fresh liquid [Schlicher] Oct:55

**Respiratory management**
Use of nasal cannula versus face mask after extubation in patients after cardiothoracic surgery [Zevola] June:47

Measuring end-tidal carbon dioxide: clinical applications and usefulness [Frakes] Oct:23

**Trauma**
Treating severe anemia in a trauma patient who is a Jehovah's Witness [Gilcreast] Apr:69

Using jugular venous catheters in patients with traumatic brain injury [Casey Kidd] Dec:16

Guidelines for the management of severe head injury: clinical application and changes in practice [Littlejohns] Dec:48

**Ventilation, high-frequency**
Using high-frequency oscillatory ventilation to treat adults with acute respiratory distress syndrome [Hynes-Gay] Oct:38

**Ventilation, liquid**
Using liquid ventilation to treat patients with acute respiratory distress syndrome: a guide to a breath of fresh liquid [Schlicher] Oct:55

**Ventilation, mechanical**
Liberating patients from mechanical ventilation: a team approach [Henneman] June:25

Continuous airway pressure monitoring [Burns] June:66

**Ventilator weaning**
Liberating patients from mechanical ventilation: a team approach [Henneman] June:25
